

RoCLEAR'S983

-Not even a min

**RoCLEAR'S983 – AI-Enabled Robotic
product for Car Cleaning for a Smarter,
Faster, and Spotless Shine!**

why no AI in this field

About our product:

Roclears is not just another car wash service; it's a Product with AI-powered, fully automated vehicle cleaning system designed for efficiency, precision, and sustainability. Our goal is to revolutionize the car wash industry by integrating computer vision, robotics, and intelligent water management to provide a touchless, time-saving, and eco-friendly cleaning experience."

- ◆ AI-driven dirt detection for precision cleaning
- ◆ Robotic arms & sensors for an optimal wash cycle
- ◆ Water recycling technology for sustainability

market-size

The car service market in India is expected to grow to \$25 billion by 2030. This growth is driven by the increasing number of vehicles on the road and the rising average vehicle age.
